

D

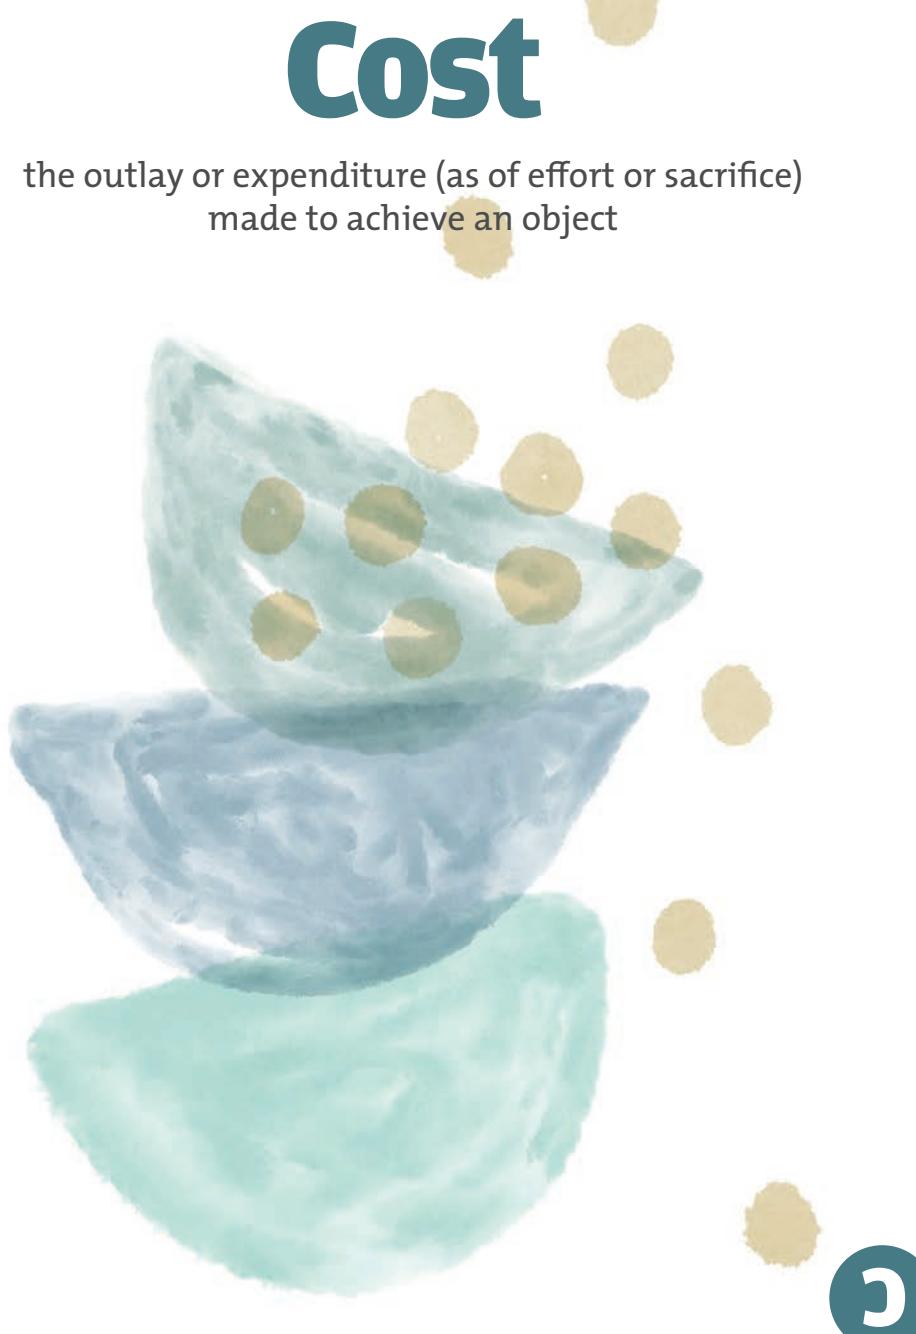

Discrimination

prejudiced or prejudicial outlook,
action, or treatment

**D****C****C****C**

Cost

the outlay or expenditure (as of effort or sacrifice)
made to achieve an object

**C**

C

In the context of working with your AI...

- ▶ When does cost become a challenge, and how could it be mitigated?
- ▶ What does cost mean?
- ▶ When and why is cost un/important to you?
- ▶ How do you feel, when you think of cost?

From a/n

technological
individual
societal
ecological

perspective...

C**C****D**

In the context of working with your AI...

- ▶ When does discrimination become a challenge, and how could it be mitigated?
- ▶ What does discrimination mean?
- ▶ When and why is discrimination un/important to you?
- ▶ How do you feel, when you think of discrimination?

From a/n

technological
individual
societal
ecological

perspective...

D**D**

S

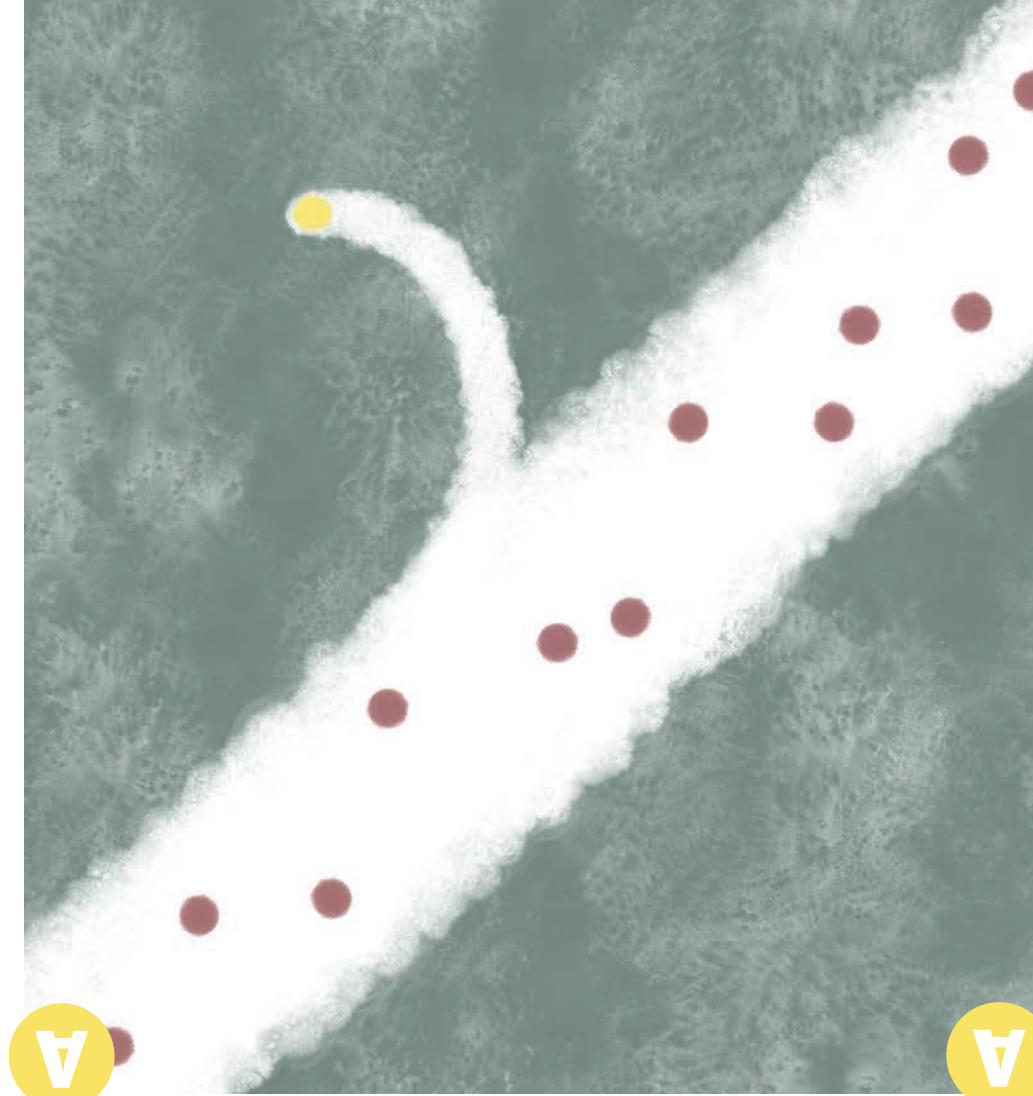

Security

the quality or state of being secure

S**S****A**

Autonomy

being self-directed or acting in a self-governing way, independent from outside control

A**A**

A

In the context of working with your AI...

- ▶ When does autonomy become a challenge, and how could it be mitigated?
- ▶ What does autonomy mean?
- ▶ When and why is autonomy un/important to you?
- ▶ How do you feel, when you think of autonomy?

From a/n

technological
individual
societal
ecological

perspective...

A**A****S**

In the context of working with your AI...

- ▶ When does security become a challenge, and how could it be mitigated?
- ▶ What does security mean?
- ▶ When and why is security un/important to you?
- ▶ How do you feel, when you think of security?

individual
societal
ecological

perspective...

S

T

Transparency

quality or ability to make one's actions visible, provide access to information

T**P**

Power

quality to have or ability to enact influence, control, authority

L**L****d****d**

P

In the context of working with your AI...

- ▶ When does power become a challenge, and how could it be mitigated?
- ▶ What does power mean?
- ▶ When and why is power un/important to you?
- ▶ How do you feel, when you think of power?

technological
individual
societal
ecological

perspective...**F****F****J****R**

S

Sustainability

quality of acting in the present without
compromising the ability of future generations
to meet their own needs

**S****S****T**

Trust

place confidence in or rely on

**S****T****T**

T

In the context of working with your AI...

- ▶ When does trust become a challenge, and how could it be mitigated?
- ▶ What does trust mean?
- ▶ When and why is trust un/important to you?
- ▶ How do you feel, when you think of trust?

In the context of working with your AI...

- ▶ When does quality become a challenge, and how could it be mitigated?
- ▶ What does quality mean?
- ▶ When and why is quality un/important to you?
- ▶ How do you feel, when you think of quality?

From a/n

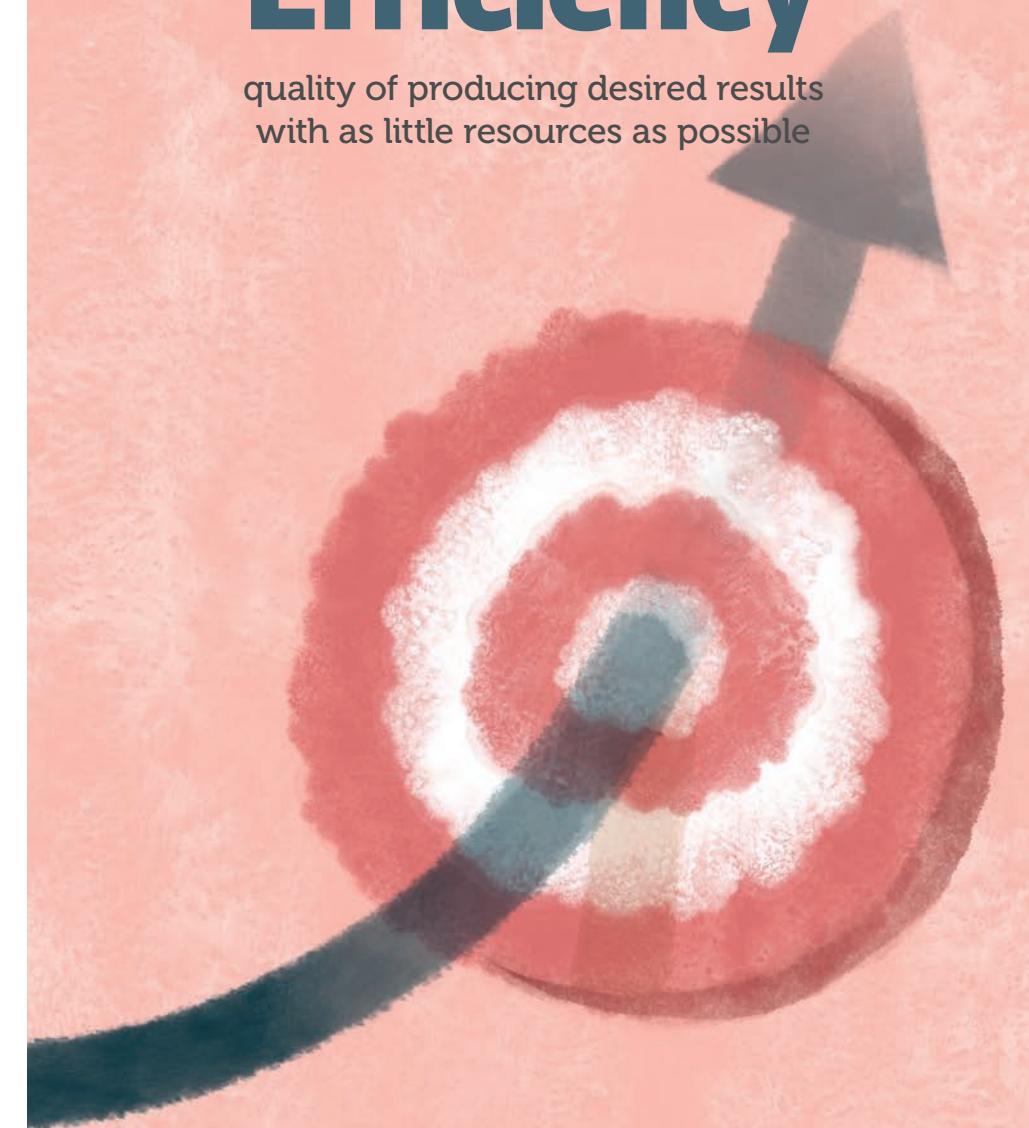

technological
individual
societal
ecological

perspective...**R****Q****Q**

E

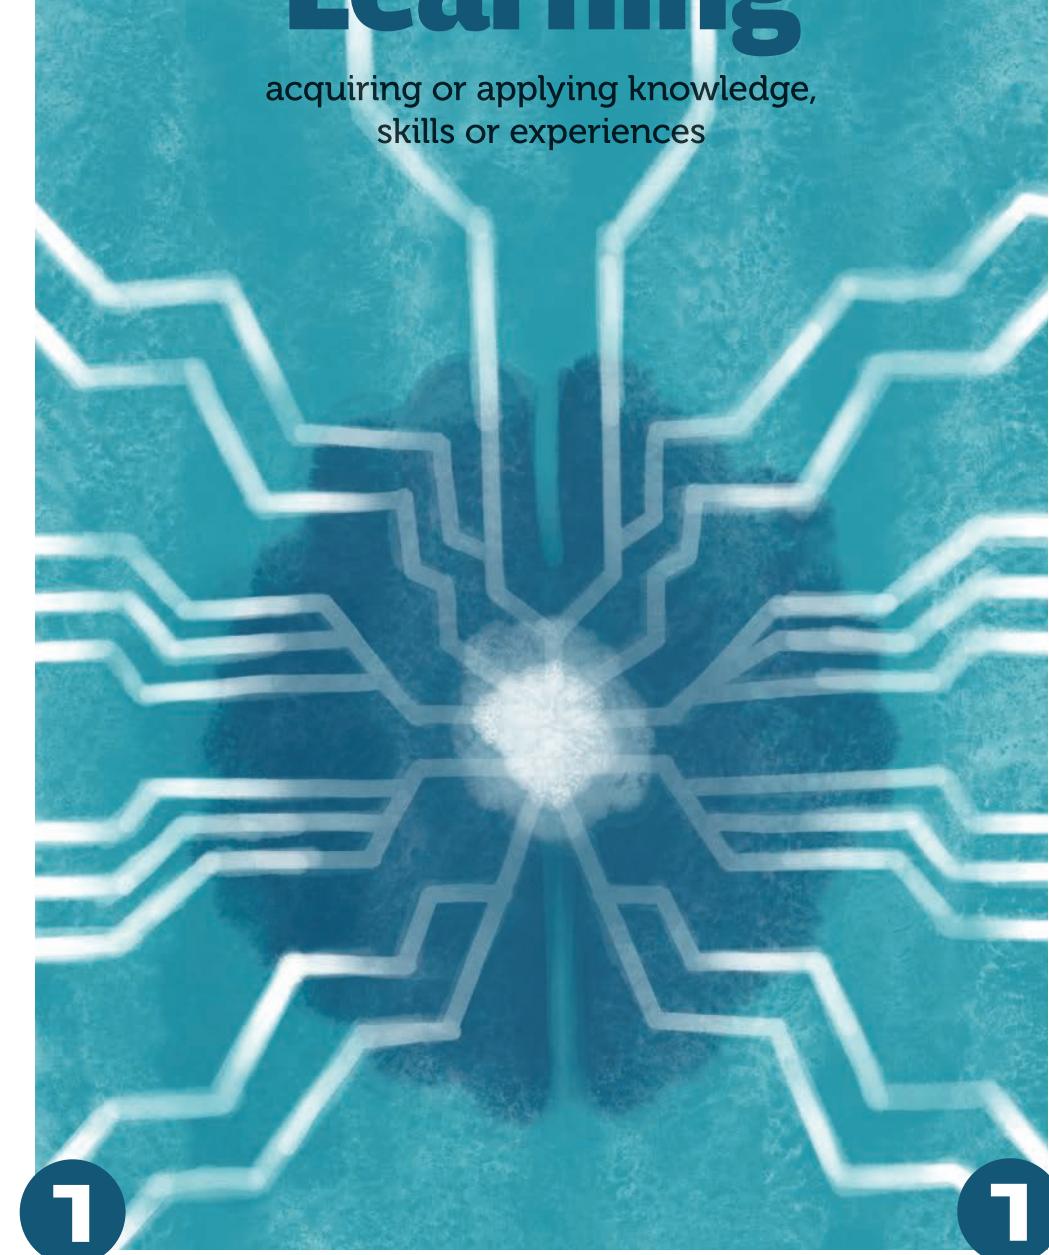

Efficiency

quality of producing desired results
with as little resources as possible

E**E****L**

Learning

acquiring or applying knowledge,
skills or experiences

L**L**

In the context of working with your AI...

- ▶ When does learning become a challenge, and how could it be mitigated?
- ▶ What does learning mean?
- ▶ When and why is learning un/important to you?
- ▶ How do you feel, when you think of learning?
