WorkAI: A Design Toolkit for the Future of Work

Date: Code Name: Iteration:

1) Imagine ⟶ 2) Reflect ⟶ 3) Document

Imagine your WorkAI

Describe a future work day with AI. Provide specific examples.

Presence

How do you sense its presence? Do you see, hear, write with, or feel it? How does it look like, sound, feel, talk, or write? You can draw it here!

How could your WorkAI look like?

Visualise and draw the AI.

Interactions

What does the AI do? What do you do?
How does the AI behave? What are its specific characteristics? How does it relate to/interact with other people involved in your work practices?

Affect

How do you feel when you interact with it? Which of its characteristics shape or cause these feelings?

WorkAI: A Design Toolkit for the Future of Work

Notes

Document the discussion about the cards here. What are the concepts most relevant for your WorkAI? What are the debates, conflicts or controversies? How would you refine your WorkAI based on the discussion?
